Information about Copyrighted Content

Some instruments administered for studies archived with ICPSR may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

ICPSR Processing Notes for #39205

National Survey of Health Attitudes, [United States], 2023

1. **Stata Limitations:** Several variable labels are truncated in the Stata files due to Stata limitations.
2. **Variable Differences:**
 - a. The variable **Q37** appears in P.I. Documentation but not in the dataset. Detailed race/ethnicity data are available with restrictions through the [RAND American Life Panel's online database](#).
 - b. Variable labels for **Q1**, **Q10**, **Q20A**, **Q20B** are truncated in the ICPSR codebook due to SPSS limitations. Please refer to the Data Collection Instrument for complete labels.
3. **Value Label Discrepancies:** Variable **Q29** contains truncated value labels due to SPSS limitations. For complete value labels, please refer to the Data Collection Instrument.
4. **Documentation Inconsistency:** Variable labels for **Q3**, **Q34_5**, and **Q34_8** contain minor differences between the documentation files which do not change their meaning.
5. **Related Data Collections:** This collection is related to the [National Survey of Health Attitudes, \[United States\], 2015, ICPSR 37405](#) and the [National Survey of Health Attitudes, \[United States\], 2018 ICPSR 37633](#). For similar study information and characteristics, please refer to previous studies.

ICPSR 39205

National Survey of Health Attitudes, [United States], 2023

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

RANDID: ID

This variable has 5,620 valid cases out of 5,620 total cases.

- Mean: 12810.50
- Minimum: 10001.00
- Maximum: 15620.00
- Standard Deviation: 1622.50

Location: 1-5 (width: 5; decimal: 0)

	Total	5,601	99.7%

Value	Missing Data	Unweighted Frequency	%
.	-	19	0.3 %
	Total	19	0.3%

This variable has 5,601 valid cases out of 5,620 total cases.

Percentages for valid and missing data are based on 5,620 total cases.

- Minimum: 1.00
- Maximum: 5.00

Location: 23-23 (width: 1; decimal: 0)

Variable Type: numeric

Q3: Do you personally currently have one or more chronic health conditions (e.g., diabetes, asthma, depression, heart disease, high blood pressure, substance use disorder)?

Value	Label	Unweighted Frequency	%
1	Yes	2936	52.2 %
2	No	2662	47.4 %
	Total	5,598	99.6%

Value	Missing Data	Unweighted Frequency	%
.	-	22	0.4 %
	Total	22	0.4%

This variable has 5,598 valid cases out of 5,620 total cases.

Percentages for valid and missing data are based on 5,620 total cases.

- Minimum: 1.00
- Maximum: 2.00

Location: 24-24 (width: 1; decimal: 0)

Variable Type: numeric

Q4: Are you limited in any way in any activities because of physical, mental, or emotional problems?

Value	Label	Unweighted Frequency	%
1	Yes	1467	26.1 %
2	No	4131	73.5 %

Value	Label	Unweighted Frequency	%
	Total	5,598	99.6%

Value	Missing Data	Unweighted Frequency	%
.	-	22	0.4 %
	Total	22	0.4%

This variable has 5,598 valid cases out of 5,620 total cases.

Percentages for valid and missing data are based on 5,620 total cases.

- Minimum: 1.00
- Maximum: 2.00

Location: 25-25 (width: 1; decimal: 0)

Variable Type: numeric

Q5: Has the poor health of another person affected your life on an ongoing basis for any extended period of time in your life?

Sometimes people take care of others who are ailing or who have health needs. For example, these may include elderly relatives, family members with disabilities or chronic disease, friends, or neighbors. (Please don't include those who you take care of for pay)
Has the poor health of another person affected your life on an ongoing basis for any extended period of time in your life?

Value	Label	Unweighted Frequency	%
1	Yes	1529	27.2 %
2	No	4066	72.3 %
	Total	5,595	99.6%

Value	Missing Data	Unweighted Frequency	%
.	-	25	0.4 %
	Total	25	0.4%

This variable has 5,595 valid cases out of 5,620 total cases.

Percentages for valid and missing data are based on 5,620 total cases.

- Minimum: 1.00
- Maximum: 2.00

Location: 26-26 (width: 1; decimal: 0)

Variable Type: numeric

Q6: Have you ever had financial problems because of a health issue for yourself and/or to help others dealing with a health issue?

Value	Label	Unweighted Frequency	%
1	Yes	1049	18.7 %

Value	Label	Unweighted Frequency	%
2	No	4538	80.7 %
	Total	5,587	99.4%

Value	Missing Data	Unweighted Frequency	%

	Total	5,577	99.2%

Value	Missing Data	Unweighted Frequency	%
.	-	43	0.8 %
	Total	43	0.8%

This variable has 5,577 valid cases out of 5,620 total cases.

Percentages for valid and missing data are based on 5,620 total cases.

- Minimum: 1.00
- Maximum: 6.00

Location: 28-28 (width: 1; decimal: 0)

Variable Type: numeric

Q8_1: Insurance through a current or former employer or union (of yours or another family member's). This would include COBRA coverage

The next question asks about your health insurance or health coverage plans. In answering this question, please exclude plans that pay for only one type of service (such as nursing home care, accidents, family planning, or dental care) and plans that only provide extra cash when hospitalized. Are you currently covered by any of the following types of health insurance or health coverage plans? Insurance through a current or former employer or union (of yours or another family member's). This would include COBRA coverage.

Value	Label	Unweighted Frequency	%
1	Covered	2951	52.5 %

	Total	5,480	97.5%

Value	Missing Data	Unweighted Frequency	%
.	-	140	2.5 %
	Total	140	2.5%

This variable has 5,480 valid cases out of 5,620 total cases.

Percentages for valid and missing data are based on 5,620 total cases.

- Minimum: 1.00
- Maximum: 3.00

Location: 30-30 (width: 1; decimal: 0)

Variable Type: numeric

Q8_3: Insurance purchased directly from an insurance company (by you or another family member) excluding coverage purchased through an exchange or marketplace, such as Healthcare.gov or [state exchange of state where respondent lives]

The next question asks about your health insurance or health coverage plans. In answering this question, please exclude plans that pay for only one type of service (such as nursing home care, accidents, family planning, or dental care) and plans that only provide extra cash when hospitalized. Are you currently covered by any of the following types of health insurance or health coverage plans? Insurance purchased directly from an insurance company (by you or another family member) excluding coverage purchased through an exchange or marketplace, such as Healthcare.gov or [state exchange of state where respondent lives].

Value	Label	Unweighted Frequency	%
1	Covered	696	12.4 %
2	Not Covered	4458	79.3 %
3	Not sure	318	5.7 %
	Total	5,472	97.4%

Value	Missing Data	Unweighted Frequency	%
.	-	148	2.6 %
	Total	148	2.6%

This variable has 5,472 valid cases out of 5,620 total cases.

Percentages for valid and missing data are based on 5,620 total cases.

- Minimum: 1.00
- Maximum: 3.00

Location: 31-31 (width: 1; decimal: 0)

Variable Type: numeric

Q8_4: Medicare, for people 65 and older, or people with certain disabilities

The next question asks about your health insurance or health coverage plans. In answering this question, please exclude plans that pay for only one type of service (such as nursing home care, accidents, family planning, or dental care) and plans that only provide extra cash when hospitalized. Are you currently covered by any of the following types of health insurance or health coverage plans? Medicare, for people 65 and older, or people with certain disabilities.

Value	Label	Unweighted Frequency	%
1	Covered	1887	33.6 %
2	Not Covered	3425	60.9 %

Value	Label	Unweighted Frequency	%

Location: 70-70 (width: 1; decimal: 0)

Variable Type: numeric

Q23: One of the main reasons that people of color (e.g., African Americans, Latinos) have poorer health outcomes (e.g., higher rates of diabetes, more deaths from coronavirus (COVID-19)) than Whites is systemic racism.

Systemic racism refers to policies and systems that reinforce racial discrimination and unfair treatment of some groups, such as where people get to live or who gets bank loans. This type of racism can be so embedded in the institutions and practices of society that it can still exist even if individuals don't want to discriminate. Please indicate how much you agree or disagree with this statement. One of the main reasons that people of color (e.g., African Americans, Latinos) have poorer health outcomes (e.g., higher rates of diabetes, more deaths from coronavirus (COVID-19)) than Whites is systemic racism.

Value	Label	Unweighted Frequency	%

	Total	108	1.9%

This variable has 5,512 valid cases out of 5,620 total cases.

Percentages for valid and missing data are based on 5,620 total cases.

- Minimum: 1.00
- Maximum: 5.00

Location: 121-121 (width: 1; decimal: 0)

Variable Type: numeric

Q35_3: People have offered suggestions in the past, but nothing happens as a result.

Whether or not you have taken action to improve health in your community, many people face barriers to getting involved. Thinking about the following statements, please rate the extent to which you think this has been a barrier for people in your community (not a barrier to a major barrier). People have offered suggestions in the past, but nothing happens as a result.

Value	Label	Unweighted Frequency	%
1	Not a barrier at all 1	307	5.5 %
2	2	692	12.3 %
3	3	2391	42.5 %
4	4	1304	23.2 %

Value	Label	Unweighted Frequency	%
5	Major barrier 5	803	14.3 %
	Total	5,497	97.8%
Value	Missing Data	Unweighted Frequency	%
.	-	123	2.2 %
	Total	123	2.2%

This variable has 5,497 valid cases out of 5,620 total cases.

Percentages for valid and missing data are based on 5,620 total cases.

- Minimum: 1.00
- Maximum: 5.00

Location: 122-122 (width: 1; decimal: 0)

Variable Type: numeric

Q35_4: People are focused on other issues.

Whether or not you have taken action to improve health in your community, many people face barriers to getting involved. Thinking about the following statements, please rate the extent to which you think this has been a barrier for people in your community (not a barrier to a major barrier). People are focused on other issues.

Value	Label	Unweighted Frequency	%
1	Not a barrier at all 1	199	3.5 %
2	2	439	7.8 %
3	3	2118	37.7 %
4	4	1703	30.3 %
